Belgrade, SCG

Letter of Support

This letter is to express our support for the development of the «Center for Advanced Mathematical Methods in Information Technologies (CAMMIT)» of the Mathematical Institute of the Serbian Academy of Sciences and Arts.

We expect that the graduate students and researchers who will participate in the research projects of CAMMIT would acquire knowledge and expertise that would make them suitable for employment in our COMPANY. We also hope to establish a cooperation whereby CAMMIT might be engaged in working on developing information technology products for our needs.

Belgrade, 04.03.2005
