

30th Anniversary of the Seminar Mathematical Methods of Mechanics

Special Course: Mathematical Methods of Mechanics

This special course will provide an introduction to analytical mechanics and geometry. It is inspired by Vladimir Arnold's famous book of the similar name. The Course is intended for a wider audience, including undergraduate and graduate students in mathematics, astronomy, physics, and mechanics. The Course will be held on Wednesdays at 16:00 (Central European Time), starting March 1, 2023 during the Spring Semester. The venue is room 301f of the Mathematics Institute SANU. The Seminar Chair: Vladimir Dragovic.
