

Dear Colleagues,

The **LeTSGEPs** (“Leading Towards Sustainable Gender Equality Plans in Research Performing Organisations”) Horizon 2020 project has the pleasure to invite You to the International Stakeholders **Workshop “Gender Budgeting in Research Institutions”**, to be held on **22 February, 2021, from 11.00 to 13.00 CET, on the Zoom platform.**

LeTSGEPs project supports the design and implementation of Gender Equality Plans (GEPs) in higher education and research institutions throughout Europe. We believe that GEPs can play one of the key roles in achieving gender equality in science and innovation as they define concrete objectives and measures on an individual, cultural and structural level, aimed to ensure lasting and sustainable effects.

Our international workshop is a part of efforts to raise awareness on the importance of Gender Equality, GEPs, and in particular on Gender Budgeting, and will bring together some of the top European researchers in this field. Please find attached the invitation for the workshop, with the detailed agenda, the list of speakers, and the Zoom link.

The participation is free of charge and open to all.

To register for the event please follow this link: **LeTSGEPs Registration**.

You can learn more about the LeTSGEPs project at: <https://letsgeps.eu/>.

The workshop is hosted by the Mathematical Institute of the Serbian Academy of Sciences and Arts (MI SANU), one of the LeTSGEPs project partners. Please do not hesitate to contact us if you have any questions at: [letsgeps@mi.sanu.ac.rs](mailto:letsgeps@mi.sanu.ac.rs).

We look forward to seeing you next Wednesday, and to working together.

Best regards,

The LETSGEPS Team

**LeTSGEPs** aims at connecting different Research Performing Organisations (RPOs) in the design and implementation of **Gender Equality Plans (GEPs)**. The project seeks to design actions and implement measures that will lead to systemic institutional change and address gender bias in RPOs at a very initial stage of gender equality measures implementation. As a powerful instrument of detecting factors that make gender inequality persistent within institutions, besides GEPs, the project will foster the use of **Gender Budgeting (GB)**, since budgets reflect real policy commitments.

This project received funding from the European Union's Horizon 2020 Research and Innovation program under Grant Agreement n° 873072
