

THEORETICAL AND APPLIED MECHANICS
TEORIJSKA I PRIMENJENA MEHANIKA

SERIES: SPECIAL ISSUE – DEDICATED TO MEMORY OF
ANTON D. BILIMOVIČ (1879-1970), Vol. 41 (S1), 2014.

GUEST EDITORS: KATICA R. (STEVANOVIĆ) HEDRIH
DRAGOSLAV ŠUMARAC

Content

Preface: Address by Guest-Editors: Anton D. Bilimovč	3
I.E. Rikun, chief bibliographer of Odessa National Scientific Library named after M. Gorkiy Anton Dmitrievich Bilimovich, an Outstanding Scientist of Mechanics	7
Radu Miron: On the Lagrangian and Hamiltonian Mechanical Systems	11
Alexander M. Kovalev, G.V. Gorr: Invariant relations method development in the Problems of rigid body dynamics	21
Katica R. (Stevanović) Hedrih: Multi membrane fractional order system vibrations	43
Julijana Simonović: Stability analysis of stationary oscillatory regimes of coupled deformable bodies system	61
Zeković N. Dragomir: Analysis of Hamilton's principle for nonlinear nonholonomic systems with regard to transpositional relations in quasicoordinates	71
Ivana Kovačić On the motion of a two blade system with a nonlinear spring	83
Z. Perović, D. Šumarac: Analysis of cyclic plasticity of trusses using the preisach model of hysteresis	99
Jelena M. Djoković, Ružica R. Nikolić: The in-plane stress influence on crack kinking out from the interface	115
Dragiša Nikodijević, Živojin Stamenković Unsteady magnetohydrodynamic heat and mass transfer past THE body with time varying wall temperature	123
Đorđe S. Čantrak, Novica Z. Janković: Influence of the Reynolds number on the statistical and correlation-spectral properties of turbulent swirl flow	137
Sreten B. Stojanovic, Dragutin Lj. Debeljkovic, Goran Simeunovic, Nebojša Dimitrijevic Finite-Time Boundedness of uncertain discrete-time descriptor systems with time-varying exogenous disturbance	149
Appendix Guest Editors: Academician Božidar Vujanović (1930-2014)	163
D. V. Breslavsky, A. A. Larin, V. B. Kononova: The Scientific and Social Activity of Professor N. N. Saltykov in Russia in 1894-1919	179
Katica R. (Stevanović) Hedrih: Radu Miron Lagrangian and Hamiltonian Geometries. Applications in Analytical Mechanics	189

THEORETICAL AND APPLIED MECHANICS
TEORIJSKA I PRIMENJENA MEHANIKA

THEORETICAL AND APPLIED MECHANICS

An International Journal

Established 1975

Aims and Scope

The Theoretical and Applied Mechanics is aimed to publish contributions from all fields of theoretical and applied mechanics including experimental contributions. Contributions from the field of Control Theory and Thermodynamics, including Heat and Mass Transfer, are welcomed. Interdisciplinary contributions among Elasticity, Plasticity, Continuum Mechanics, Nonclassical Media, Mechanics of Materials, Smart Materials, Fluid Mechanics, Rheology, Relativity, Analytical Mechanics will be specially promoted.

First editor-in-chief:

VELJKO VUJIČIĆ, University of Belgrade, Beograd, Serbia

Editor-in-Chief:

MILAN MIĆUNOVIĆ

University of Kragujevac, Sestre Janjica 6a, 34000 Kragujevac, Serbia

Editorial Board:

TEODOR ATANACKOVIĆ, University of Novi Sad, Novi Sad, Serbia

RANISLAV BULATOVIĆ, University of Podgorica, Podgorica, Montenegro

VLADAN DJORDJEVIĆ, University of Belgrade, Beograd, Serbia

DJORDJE DJUKIĆ, University of Novi Sad, Novi Sad, Serbia

NIKOLA HAJDIN, University of Belgrade, Beograd, Serbia

JOVO JARIĆ, University of Belgrade, Beograd, Serbia

ANTONY KOUNADIS, National Technical University, Athens, Greece

VLADO LUBARDA, University of California, San Diego, USA

GÉRARD MAUGIN, Université Pierre et Marie Curie, Paris, France

INGO MÜLLER, Technical University, Berlin, Germany

IAN MURDOCH, University of Strathclyde, Glasgow, Scotland

ALEXANDER SEYRANIAN, Lomonosov State University, Moscow, Russia

ROBIN TUCKER, Lancaster University, Lancaster, England

BOŽIDAR VUJANOVIĆ, University of Novi Sad, Novi Sad, Serbia

Editorial Assistant:

Ljudmila Kudrjavceva, State University of Novi Pazar, Serbia

Abstracted/indexed in:

Aeronautical Abstracts, Applied Mechanics Reviews, Mathematical Reviews, Mekhanika, Zentralblatt für Mathematik.

Instructions for the Authors

1. Submission of the paper

Authors who wish to have papers published in the Theoret.Appl.Mech. should send two copies of the manuscript (Format A4) including text, tables and figures on enclosed CD to the Chief Editor (for address see the inside cover page). The typesetting system should be LaTeX either by MikTeX or SCIENTIFIC WORD, preferable style is Standard LaTeX Article. Papers written by means of Microsoft Word are acceptable too but preferable system is LaTeX. The faster and better way to submit articles would be by electronic mail as attachment on the following addresses: either mmicun@sezampro.rs or mmicun@kg.ac.rs.

In both cases, for a fast communication and reducing waiting time it is absolutely necessary to send an e-mail address of the author(s) to the Chief Editor.

2. Preparation of the manuscript

General: The manuscripts should be in English and typed with double spacing on a single side of an A4 paper. The first page should contain: (1) short title, (2) all the names of the author(s), (3) an abstract of approximately 100 words, (4) keywords, (5) key-subjects of the paper according to the MSC2010 classification on www.zentralblatt-math.org/msc/data/msc2010.pdf. The paper should be concluded by proper conclusions, which reflect the findings in the paper. The editor will provide an abstract in Serbian language for each paper. The authors are responsible for proper spelling, punctuation and grammar. At the end of the paper the authors should provide names and addresses, together with their e-mail addresses, for correspondence.

Tables and figures: Tables and figures (both without captions) should be submitted either on enclosed diskettes or by electronic mail. Preferred format of figures is EPS. They should be refereed in the text as Fig.1, Table 2, etc. A separate list of captions for both illustrations should be provided at the end of the manuscript.

References: They should be as follows:

- Book:** [1] B.D.Vujanovic and S.E.Jones, Variational methods in nonconservative phenomena, Academic Press, Boston, 1988.
- Journal:** [2] E.Reissner, *On one-dimensional finite strain beam theory: the plane problem*, J.Appl.Math.Phys.(ZAMP), 23, (1972), 795-804.
- Proceedings:** [3] J.Smith and H.Johnson, *Waves and turbulence*, In Proc. Euromech. Symp. On Fluid Mechanics, ed.H.Schmidt,Gauthier-Villars, Paris, (1993), 34-37.

3.Proofs

Proofs are sent by e-mail to the corresponding author to correct any typesetting errors of the original manuscript. The author is requested to send the proofs back within one week.

4. Copyright

Submission of an article to TAM implies that it presents the original and unpublished work, and not under consideration for publication elsewhere. On acceptance of a manuscript submitted, the copyright hereof is transferred to the publisher.

5. Letters to editors

Critical remarks concerning published papers as well as corresponding answers of authors are going to be published promptly – possibly in next issue of the journal. Again, for such a fast correspondence e-mail addresses of authors are needed.
